On May 19, 2016 *LatinFinance* returned to Buenos Aires for the second edition of the Cumbre Financiera Argentina to weigh in on the progress made during the first 6 months of Argentine President Mauricio Macri's reform drive and to assess the steps that must now be taken to steer Latin America's third largest economy back on a track towards sustainable growth.

"A total success!"

Pierpaolo Barbieri, Senior Strategist- Argentina Fund, Brevan Howard

"I congratulate you all for yesterday's forum. Everything was a success: the speakers (really good interview of Caputo), the panels, the audience, as well as the organization of the event. There is a lot of demand in Argentina for these type of conferences, keep it up and come back!"
