

September 22-23, 2016 | MS Milenium | Monterrey, Mexico

On September 22-23, LatinFinance returned to Mexico to host its annual **Infrastructure and Sub-Sovereign Finance in Mexico Summit** in Monterrey. Now in its 9th year, the conference once again provided the most essential platform for gathering the leaders of Mexico's infrastructure marketplace to address its growing sophistication and the progress made by Mexican states since the country launched its historic reforms.

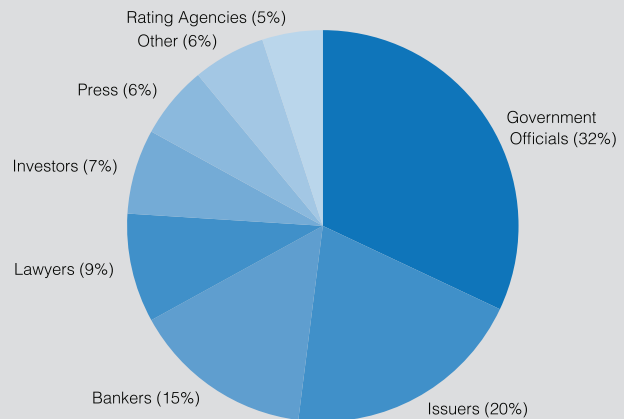

"It was an outstanding event, consistent with LatinFinance's quality commitment to our region for the past decade, which provides a unique atmosphere in which specialists of different sectors meet together to analyze and exchange recent events and experiences to better the subsovereign sector in Mexico. Monterrey was just an outstanding venue for this extraordinary event."

Rene Arce Lozano, Partner, Hogan Lovells

"One of the best events of the year for public and private sector. I have been speaking at this event since the last 2 years and I can easily say that it is a great forum to talk about the energy reform of our country among other important topics."

Víctor Luque, Managing Director for State Owned Enterprises, Ministry of Energy (SENER)
