

May 10, 2016 | Radisson Blu Portman Hotel | London, England

The investment relationship between Latin America and Europe runs deep – and despite a volatile marketplace, Latin America continues to offer considerable value to European investors, just as European markets offer a range of opportunities for Latin American entities looking to diversify their investor base and manage their funding costs.

The 3rd Latin America Europe Investors Forum (LAEIF) gathered leading Latin American corporates and sovereigns, investors and intermediaries for a day of in-depth discussions exploring the full spectrum of investment and business opportunities.

“The conference helped me to better appreciate the issues that organisations and investors are facing in that region”

Barbara Davidson, IFRS Foundation

“The conference was very informative, useful and well organized”

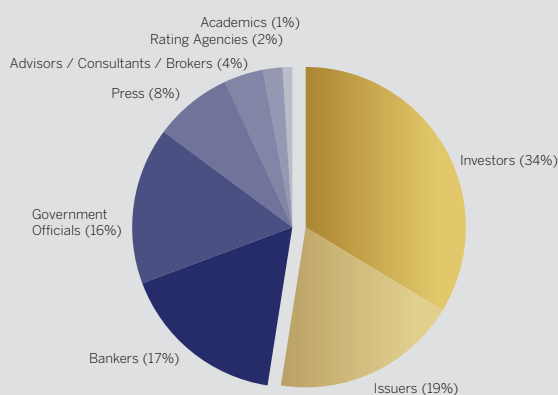

Oleg Rzhondkovskiy, The State Export-Import Bank of Ukraine
